TORONTO ACADEMY OF DENTISTRY

OUR ACADEMY

The ACADEMY OF DENTISTRY, formerly the Toronto Dental Society, has been functioning continuously since 1890. It has provided leadership and service to both the profession and the community, and will continue to do so in the future.

The OBJECTS of the Academy are:

1. Advancement of the art and science of dentistry.
2. To promote the highest ideals of dental practice.
3. Cultivation of harmony and good fellowship among its Fellows, and among the members of the dental profession generally.

Some of the specific services provided are as follows:

1. The Annual WINTER CLINIC.
2. After hours EMERGENCY TREATMENT service for the public.
3. The Annual WINTER CLINIC/INFORMATION BOOK, a directory of dental organizations.
4. PUBLIC RELATIONS, a secretary to answer the public's queries and complaints.
5. An ELECTED COUNCIL, representing all Metro Toronto dentists and their local component societies.
6. CO-ORDINATION of dental and fellowship functions within Metro Toronto.
7. DENTAL MEETINGS with excellent programs and clinicians.
8. Assistance in formation of new STUDY GROUPS.
9. HONOURARY LIFE MEMBERSHIP to recognize outstanding dentists.
10. Fellowship activities such as the Annual GOLF TOURNAMENT, CURLING BONSPIEL, and SKI DAY.
11. MEDIATION SERVICES for the public.
12. COMMUNICATION with dental auxiliary organizations.
13. Provides an ASSOCIATE PLACEMENT service.

THIS IS OUR ACADEMY.
KEEP IT STRONG. SUPPORT IT, ENJOY IT.

Important Information

• RCDS ACCREDITATION • 5 RCDS Credits for the Winter Clinic

There will be **two badges** in your badge holder. **One is a receipt of payment and the other must be stamped for RCDS accreditation. Accreditation desks will be set up at the top of the escalator to Hall C, between 2:30 p.m. and 5:30 p.m.**

• ACADEMY OF GENERAL DENTISTRY – 6 Credit Hours

• REGISTRATION – All forms are at the front of this book.

Read registration forms carefully and send to the appropriate association (Academy of Dentistry, ODNAA, ODHA)

A draw will be held for those who pre-register. Ash Temple Ltd. has donated a prize which will be drawn at the luncheon.

ODA MEMBERSHIP – must have been paid at least 2 weeks prior to your Winter Clinic registration. If you are not a member of the ODA at the time you register for Winter Clinic, you must pay the full non-member's fee.

NO REGISTRATIONS will be accepted by the office **after Friday, November 17th. The office will be closed on Tuesday, November 21st (the day before Winter Clinic)**

• EXHIBITS • SUPPORT YOUR INDUSTRY!

Exhibits will be open from 10:00 a.m. until 8:00 p.m. in Exhibit Hall C (East end of Convention Centre)

• MEETING TIMES •

Clinics run in the morning from 9:00 - 12:00 noon

Afternoon sessions are from 2:15 - 4:45 p.m.

• DISCLAIMERS

The views expressed or the products promoted by a speaker do not represent or reflect the endorsement or approval of the Toronto Academy of Dentistry.

The products or services promoted by any exhibitor do not represent or reflect the endorsement or approval of the Toronto Academy of Dentistry.

Greetings

John Jenkins
B.D.Sc., M.Sc.D., Dip. Ortho

Flavio Turchet
D.D.S.

We would like to welcome you and extend our best wishes in the hope that you will receive maximum personal and professional benefit from attending the **58th Annual Winter Clinic**. The Meeting has been planned by the officers of the Academy and the members of the Winter Clinic Committee in line with some of the objectives of the Academy: The cultivation of harmony and good fellowship, the advancement of the dental profession through continuing education and working together. The Academy is appreciative of the contribution made by the representatives on the committee from the ODNAA, ODHA, The Dental Industry Association of Canada, and The Association of Registered Dental Technicians of Ontario. We would also urge you to take advantage of the contributions being made by the speakers and clinicians, and be sure to enjoy the forum provided for us all by the exhibitors.

The book you are holding has been designed by members of your Academy to be useful to you on an ongoing basis. Towards that goal, we would urge you to look towards the back of the book for other **Academy events** which are invariably enjoyed by those who take part; unfortunately, these are not made use of by many of our members. Before rushing out to sign up for other Academy events, we trust you will thoroughly enjoy the fellowship, lectures and clinics available at the Winter Clinic, take audio cassettes of any presentations which you want to revisit and join us for lunch at which time your Academy will have the opportunity of honouring a former president of the Academy who has contributed much to dentistry in this province, Dr. John Mullett.

By way of furthering the work of the Academy in helping others in our society, we would like to remind you that we are organizing a **Gala evening on November 21, 1995 – Give More Hope to a Child.** The proceeds of this exciting affair go to the Hugh MacMillan Children's Foundation. We are attempting to purchase a state of the art ultrasound machine to assist in the diagnosis and treatment of children with swallowing disorders and sleep apnea. Anyone who would like to make a donation to the Foundation or purchase tickets for the Gala are invited to contact the Academy office.

Finally, we hope that the **entire dental team** benefits from and enjoys this day of fellowship and education.

Greetings from ODNAA

Rena Roxborough
CDA/CDR/PDA
President ODNAA

It is my pleasure to welcome you to the 58th Annual Winter Clinic.

The goal of Ontario Dental Nurses and Assistants Association is to promote learning and fellowship among the dental assistants, dental receptionists and dental office managers of Ontario.

The Winter Clinic committee has worked hard to arrange an excellent program of continuing education and fellowship for you. We have a number of seminars, group clinics, table clinics, and exhibits to offer.

I invite you and your whole dental team to use this day to recharge yourself and prepare for the upcoming winter.

Welcome from the Ontario Dental Hygienists' Association

Christine Ryan
President

Welcome to the 58th Annual Academy of Dentistry's Winter Clinic.

On behalf of the Ontario Dental Hygienists' Association (ODHA) members, I wish to thank Raisyl Wagman of the Toronto Academy of Dentistry, Barbara Greenglass, ODHA Winter Clinic Official Representative and their respective committees for planning and providing us with this continuing education opportunity.

Continuing education is the guiding force which helps all dental team members stay current and embrace and understand new theories and technologies so the best possible care can be delivered to the dental health consumer.

Greetings

Eva Young
DIAC President

It is my pleasure to welcome you to the 1995 Toronto Academy of Dentistry Winter Clinic and Special Gala Evening Fundraiser for the Hugh MacMillan Children's Foundation.

DIAC congratulates the members of the Winter Clinic Committee for their selection of stellar speakers, their co-operation and assistance in putting together an excellent exhibit floor, and their tireless effort in creating an absolutely outstanding Gala Event for Tuesday Evening featuring a host of special events and entertainment to guarantee fun and enjoyment for all.

Our mutual goal for this year's "Give More Hope to a Child" evening was to raise $100,000 toward a unique ultrasound diagnostic machine which will assist disabled children with difficult "swallow disorder" problems. Five years ago, the Toronto Academy, working with the help of the dental profession and industry was able to surpass their goal. Hopefully, the Academy will be able to do that again this year.

As always, our members look forward to seeing you on the exhibit floor, and they have prepared many interesting displays of products, equipment, promotions and services to capture your interest and answer your needs. Please remember to take some extra time to visit us.

On behalf of the Dental Industry Association of Canada and its members, we wish each of you the best of success in all aspects of the 58th Annual Winter Clinic!

Association of Registered Dental Technicians

Andre Theberge
President

I would like to extend a warm greeting to all attendees at this year's Winter Clinic.

This venue has been a source of enjoyment and education in the past for dental technologists and will continue to be such in the future. Our professional contribution to dentistry, for years had difficulty in being realized or fully exploited by the greater dental community. To this end, I would like to extend my great appreciation to the Academy of Dentistry for their invitation to our Association to participate in the official ceremonies of the Convention, and their commitment to the enhancement of dental knowledge to all facets of our industry!

Have a great Convention.
Thank you
Andre Theberge, President

March 29, 1995

Dear Colleagues:

The Toronto Academy of Dentistry has generously agreed to support a research project at the Hugh MacMillan Rehabilitation Centre.

We have established a multicentre feeding disorders program which includes The Hugh MacMillan Rehabilitation Centre, The Hospital For Sick Children and Bloorview Children's Hospital. The combined expertise from these centres addresses all aspects of dysphagia (swallow disorders) or medical etiology in the pediatric patient. The coordination of the centres from The Hugh MacMillan Rehabilitation Centre provides a service with a scientific foundation that is not found in other centres. The interdisciplinary team approach that we use is unique and has become well known to those in the field of dysphagia. Our team is composed of members skilled in the diagnosis and management of feeding disorders in the complex medically compromised pediatric patient. Pertinent findings from the clinical research by our Feeding Disorders Research Unit are implemented into our clinical management of these patients.

There is very little quality scientific research in this complex area of dysphagia and it is only recently that there has been a marked interest in this area. Investigations by the Feeding Disorders Research Unit are a driving force in our clinical management of the patient. Our goal is to investigate, evaluate and develop all non-invasive procedures scientifically. The long term benefits will be the establishment of scientific based protocols in the management of neuro-muscular feeding disorders. It is in this spirit that we are about to expand our investigations in the development of non-invasive tools for the diagnosis of aspiration. The problem is: there is no government funding available for this, so we are grateful to the Academy for their financial support, as research and develop funding is so scarce. We hope that you in turn will support the Academy with your attendance at the Gala evening this fall

Sincerely yours,
Rod Moran,
D.D.S., F.R.C.D.(C), O.Ont
Director of Dentistry
The Hugh MacMillan
Rehabilitation Centre

Walter Hailey
The Missing Link In Dentistry

Walter Hailey

From humble beginnings on a cotton farm in Texas, Hailey developed the NEER Marketing System which produced over 1 billion dollars in sales in less than eight years. He sold his first company for 78 million dollars. He went on to start two other companies traded on Wall Street's NASDAQ market; a medical/dental malpractice insurance company and an oil company with the highest price earnings ratio of any company of its type.

Now in his fourth and most enjoyable career, Hailey is sharing his successful business systems with entrepreneurs, executives, and professionals and dentists through his "Boot Kamp" seminars around the world. Dentists have taken a particular interest in his down-to-earth philosophies. Hailey has appeared on every major dental meeting program in North America and his Dental "Boot Kamps" are sold out months in advance.

Time:	9:00-11:30 a.m. and 2:15-4:45 p.m.
Room:	Theatre
Chairpeople:	Dr. Peter Markle and Dr. Jack Wasserman

SYNOPSIS

Increasing your patient base and case acceptance rate depends on your persuasive power and relationship skills to help patients understand and accept the treatment you know they need. After understanding why most businesses fail, you will learn a unique blend of people and persuasion principles that will help you to complete the missing link between clinical expertise and practice management that can have a dramatic, positive impact on your dental practice and on your life.

DON'T MISS THIS OPPORTUNITY TO SPEND THE DAY WITH WALTER HAILEY!!!

A MUST FOR THE ENTIRE DENTAL TEAM!!

LIMITED ATTENDANCE.

Update On Esthetic Restorative Dentistry

Dr. Donovan is currently chairman, Section of Biomaterials Science, Chairman, Department of Restorative Dentistry, and Director of the Advanced Education Prosthodontics Program at the University of Southern California.

Room: 202ABCD
Time: 9:00-11:30 a.m. & 2:15-4:45p.m.
Chairpeople: Dr. Godfrey Beber and Dr. Peter Tonisson

Terry Donovan D.D.S.

SYNOPSIS

This presentation will delineate the procedures essential for success with conventional and contemporary adhesive restorative dentistry. An objective comparative evaluation of many of the newer products on the market will also be given, with an emphasis placed on clinical manipulation of these products.

TOPICS TO BE COVERED INCLUDE:

1. Essentials for soft tissue esthetics in fixed prosthodontics.
2. Effective gingival displacement
3. New materials and techniques for fabrication of provisional restorations.
4. Review of impression materials.
5. New techniques with impression materials.
6. Solutions for fractured porcelain
7. Metal bonding – mystery and myth.
8. Current thoughts on bonding to tooth structure.
9. Bonded porcelain (i.e. veneers, crowns, inlays, onlays).
10. Essentials for success in fixed prosthodontics.
11. Review of dental cements and luting agents.
12. Other current topics.

THIS IS A FULL DAY PRESENTATION

Periodontal Update: Implementing Research Into Everyday Practice

William Becker
D.D.S., M.S.D.

Dr. Becker is a Diplomate of the American Board of Periodontology, and past president of the American Academy of Periodontology. Dr. Becker is also an assistant professor at the University of Southern California School of Dentistry and a clinical professor of periodontology at the University of Texas. He is also in a full-time practice in Tucson, Arizona.

Room: 203AB
Time: 9:00-11:30 a.m.
Chairperson: Dr. Gilbert Chapnick

MORNING SESSION SYNOPSIS

Periodontics is one of the most rapidly changing fields of dentistry. The basis of periodontal therapy is an accurate diagnosis. We will provide the participants with a disease classification based on an understanding of etiology. We will discuss the basics of a cancer screening examination and the instruments necessary for a comprehensive examination. We will compare manual versus computerized probing, testing for disease activity and the steps in treatment plan implementation. The role of scaling and root planing, hand versus ultrasonic scaling, antimicrobial therapy, flap curettage and the use of tetracycline fibers will be discussed. The steps for implant maintenance will also be presented.

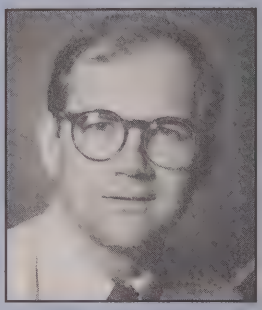
Regeneration for Periodontal Defects and Dental Implants: The State of the Art

Time: 2:15-4:45 p.m.
Chairperson: Dr. Gerry Pearson

AFTERNOON SESSION SYNOPSIS

The objective of this presentation is to provide the participants with up-to-date information relative to regenerative procedures. Regeneration for periodontal defects and dental implants are the primary objectives of therapy. Guided tissue regeneration (GTR) is one of the most interesting aspects of regenerative therapy. We will discuss the objectives of periodontal regeneration, which defects can be most predictably treated and evaluate defects which have been treated by these procedures. We will discuss the use of various types of barrier membranes including collagen membranes, resorbable membranes and ePTFE barriers. We will also discuss a new method for augmenting implants which are placed into the esthetic zone.

Post-Operative Pain Control: Something Old, Something New



Harold L. Crossley
D.D.S., PH.D.

Dr. Crossley is an Associate Professor of Pharmacology at the University of Maryland Dental School. He has been appointed to the Governor's Commission on Prescription Drug Abuse, serves on the State Dental Association's Committee for the Rehabilitation of Dentists as well as a University Interdisciplinary Committee for Drug Abuse Education.

Room: 205CD
Time: 9:00-11:30 a.m.
Chairperson: Dr. Ken Hershenfield

MORNING SESSION SYNOPSIS

No area of oral therapeutics presents such diversity as the control of post-operative dental pain. Are the best analgesics centrally acting? Is there a role for the local anesthetics in treating post-operative pain? These questions and others will be addressed by this practical approach to treating pain of dental origin. The current medications available are discussed with a focus on indications, contraindications and mechanisms of action. New approaches to medication-controlled discomfort with the use of NSAID's and long acting local anesthetics will be presented in a clinically useful format.

Pharmacologic Management of Dental Infections: Facts and Fallacies

Time: 2:15-4:45 p.m.
Chairperson: Dr. Don Stewart

AFTERNOON SESSION SYNOPSIS

In this presentation, we will explore the traditional as well as the newer antibiotics and antifungal agents available to treat patients with orofacial infections. Indications and contraindications, SBE prophylaxis guideline update, and recommendations for the orthopedic prosthesis patient will be included in this informative presentation. This discussion will include medications prescribed by the patient's physician which may interfere with your antibiotic therapy.

Sports Dentistry: Oral/Facial Injury Prevention and Treatment

Ray R. Padilla
D.D.S.

Dr. Padilla is in a practice with the Sunset Dental Group, as well as being involved with several professional affiliations. He is on the dental staff at the Queen of the Valley Hospital in California. Dr. Padilla has also been a part of the medical team for events such as the Olympic Games and the World Cup.

Room: 206EF
Time: 9:00-11:30 a.m.
and 2:15-4:45 p.m.
Chairperson: Dr. Paul Piccininni

MORNING SESSION SYNOPSIS

- Introduction to Sports Dentistry
- Medical related injuries for recognition and referral we may see while treating dental related injuries:
    - Concussion
    - Cervical Spine Injuries
    - Heat Illness
- Dental trauma injury recognition and treatment
- Mouthguards
    - Definition
    - Types
    - Sports needing mouthguards

AFTERNOON SESSION SYNOPSIS

- Fabrication of Custom-Made Mouthguards
- Variations of mouthguard fabrication for braces, mixed dentition, boxing and martial arts, strap attachments
- Establishing a mouthguard program in your private practice
- Using a mouthguard program to increase patient flow
- Smokeless tobacco, anorexia and bulimia
- HIV and the athlete
- Legal liability for the sports dentist
- Field bag content

THIS IS A FULL DAY PRESENTATION

Practical Guidelines for the Restoration of the Partially Edentulous Space

Michael S. Moscovitch D.D.S.

Dr. Moscovitch is presently Assistant Clinical Professor in the Department of Graduate Prosthodontics at Boston University. He holds memberships in numerous organizations including The Association of Prosthodontists of Canada, The Academy of Osseointegration and The Northeast Gnathological Society. He maintains a private practice in Montreal limited to Prosthetics and Implant Dentistry.

Room: 205AB
Time: 9:00-11:30 a.m.
Chairperson: Dr. Murray Wagman

MORNING SESSION SYNOPSIS

Dentists are faced with many different treatment options in restoring the partially edentulous space. These options will be explored from a diagnostic and treatment perspective. Step-by-step procedures will be illustrated showing successful management of these cases. Traditional approaches as well as the current techniques with bonded and implant restorations will be covered.

Predictable Techniques for Using Provisional Restorations as a Diagnostic Blueprint

Time: 2:15-4:45 p.m.
Chairperson: Dr. Howard Klaiman

AFTERNOON SESSION SYNOPSIS

Present restorative procedures have become technically complex. As well, patient demands have placed additional stress in achieving highly esthetic and functional restorations. Provisional restorations are the key to establishing control in the successful treatment of patients. This presentation will illustrate how to fabricate esthetic and functional provisionals. Clinical and laboratory techniques will be shown to explain the transfer of information from provisionals to definitive restoration.

Medical Emergencies in the Dental Office

Paul Chapnick
D.D.S., F.A.D.S.A., F.R.C.D.(C)

Dr. Chapnick has practiced Oral and Maxilofacial Surgery for thirty years. He is on the Associate Staff of the University of Toronto Faculty of Dentistry and Active Staff at Mount Sinai, Northwestern and Baycrest Hospitals.

Room: 206AB
Time: 9:00-11:30 a.m. and 2:15-4:45 p.m.
Chairpeople: Dr. Arnie Weingarten and Dr. Bruce Rubin

SYNOPSIS

It is essential that all personnel become proficient in the rapid recognition and management of life threatening emergencies, especially with the stresses involved in the typical dental office environment. The morning session will deal with emergency prevention by appropriate history review and pre-operative management. The afternoon session will involve management of common emergencies including unconsciousness, respiratory difficulty, drug-related situations, seizures and chest pain. A dental emergency drug kit and equipment will also be reviewed.

THIS IS AN ALL DAY PRESENTATION

Paediatric Medicine as it Applies To Children's Dentistry

Dr. Michael J. Sigal

Dr. Sigal is the Associate Professor and Head of Paediatric Dentistry and the Director of the Internship in Special Care Dentistry at the Faculty of Dentistry, University of Toronto. Dr. Sigal is also the Head of the Dentistry for the Disabled at Mt. Sinai Hospital in Toronto. As well, he maintains a private practice in paediatric Dentistry and Dentistry for the Special Patient at the Mt. Sinai Hospital.

Room: 201EF
Time: 9:00-11:30 a.m.
Chairperson: Dr. Bob Pick

SYNOPSIS

The purpose of this presentation is to present common medical conditions seen in children and then review how these conditions impact on the delivery of their required dental care. The review will focus on the medical presentation, and management of the condition and then relate the medical concerns to the level of dental care that is required. A brief, current review of the medical conditions will be included. The presentation will follow a case history format which will include a review of all of the major medical systems.

New Toys For Endodontics – An Update

Noah Chivian
D.D.S.

Dr. Chivian is Director of Dental Services at the Newark Beth Israel Medical Center. He is also a guest lecturer in graduate endodontics at Colombia University, Temple University, and New York University, and an adjunct associate professor of endodontics at the University of Pennsylvania. He maintains a private practice limited to endodontics in New Jersey.

Room: 206CD
Time: 9:00-11:30 a.m.
Chairperson: Dr. Shayne Lipton

SYNOPSIS

This session will present an overview of the new devices designed for endodontics and separate fact from fiction regarding their effectiveness. Dr. Chivian will also present a concise approach to conventional root canal therapy and show how dental devices can make routine cases more successful. Subjects to be covered include apex locators, nickel titanium, rotary instruments, sonics, ultrasonics, injectable and alpha phase gutta percha and more.

The Toronto Academy of Dentistry thanks the Ontario Society of Endodontists for their co-sponsorship of Dr. Chivian's lecture.

A Dentist's Expertise – Diagnosing Hard Tissue Pathosis of the Jaw

Kenneth Abramovitch
D.D.S., M.S.

Dr. Abramovitch is Associate Professor and Head, Section of Radiology at the University of Texas Dental Branch in Houston. He also maintains a private practice in Oral Radiology and oral Medicine.

Room: 203CD
Time: 9:00-11:30 a.m.
Chairman: Dr. Jerry Weisberg

SYNOPSIS

The diagnosis of hard tissue lesions of the jaws is the dentist's area of expertise. Properly taken intraoral and panoramic films are excellent modalities to evaluate these pathoses. This review will include various reactive, developmental, benign and malignant diseases as they appear on radiographic images obtained in the dental office.

This presentation will also include a historical presentation on the Centennial of the discovery of x-rays.

The Academy of Dentistry thanks Kodak Canada Dental Products for its co-sponsorship of this presentation.

Passionate Longevity – The 10 Secrets to Growing Younger

Elaine S. Dembe
D.C.

Dr. Elaine Dembe is a celebrated chiropractor, writer, Rap singer, motivational speaker, and media personality who has been called a "cheerleader for life".

Room: 201CD
Time: 9:00-10:00 a.m.
Chairperson: Dr. Gerry Solomon

SYNOPSIS

Whether you are 35, 55 or 75, Dr. Elaine Dembe's positive, humorous presentation will tell you how to live a happier, healthier life – physically and emotionally – with passion. The author of the bestseller Passionate Longevity – The 10 Secrets to Growing Younger, this motivational speaker will offer practical tips for a balanced, healthy lifestyle that will change the way you think about growing older.

Her refreshing, high-energy and entertaining approach may add years to your life!

Meeting The Challenges of Stress: A Psychological Perspective On How To Cope With Pressures in the Modern Workplace

Dr. Ronald M. Clavier
Clinical Psychologist

Dr. Clavier has a doctorate in psychology, and is on the Faculty at several universities, including The University of Toronto Medical School.

Room: 201CD
Time: 10:15-11:15 a.m.
Chairperson: Dr. Gerry Solomon

SYNOPSIS

Some stress is necessary for normal functioning. However, in excess, stress can be very destructive. The psychological effects of stress depend, largely, on factors such as individual reactions and coping strategies.

Effective counselling can usually alleviate stress and improve coping techniques. However, without proper guidance, this problem can be ruinous not only for the individual, but also for friends, family and co-workers.

Clinical Challenges in Orthodontic Practice

Dr. Rossouw is the Head of the Department of Orthodontics, Faculty of Dentistry, University of Toronto. He is also in a part-time private practice.

Room: 201AB
Time: 9:00-10:00 a.m.
Chairperson: Dr. Gordon Organ

Dr. P. Emile Rossouw
B.SC, B.Ch.D., B.Ch.D. (Hons), M.Ch.D., Ph.D

SYNOPSIS

The orthodontist faces many challenges in everyday practice, including the task of choosing between the extraction and non-extraction treatment philosophies. Detrimental effects of treatment and ultimately end results should not occur, since growth and development continues into adulthood. Research has confirmed these variables can influence results and, thus, the question, "When does the most change take place to cause relapse of a corrected malocclusion?"

Maintenance of arch form during this treatment is imperative, including the prevention of late lower incisor crowding. Of course, the stability of the orthodontic end result is one of the most difficult and elusive goals to achieve.

Oral hygiene is another problem, with plaque retentive brackets, decalcification of enamel and caries. These can be countered by acid stripping.

Tax Planning Strategies

Martin Chasson is a senior partner in the chartered accounting firm of Chasson & Greenglass. He has extensive experience in dealing with professional and owner-managed buinesses.

Room: 201AB
Time: 10:15-11:15 a.m.
Chairperson: Dr. Gordon Organ

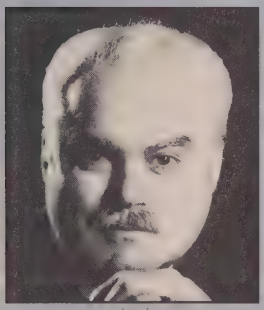
Martin Chasson

SYNOPSIS

This presentation will address various taxation and other concerns of dental practitioners. Some areas to be covered are:

- Mandatory December practice year ends (effective December 1995)
- Practice goodwill and the capital gains exemption election
- Debt structuring and interest deductibility
- Current methods of income splitting
- Retirement planning

Positioning Your Practice for an Equity Transition



Derek Hill
C.A.

Mr. Hill is the managing director of Healthgroup Services Incorporated, although he was previously a partner in a public accounting practice for 15 years. Mr. Hill has been very active in the dental environment for in excess of 20 years as a consultant, lecturer, accountant and public speaker.

Room: 203CD
Time: 2:15-4:45 p.m.
Chairperson: Dr. Ron Traub

SYNOPSIS

This presentation includes:

- A review of practice valuation methods including a do-it-yourself example
- A review of things which should be done in advance of a sale/transition
- A review of the different types of transitions which dentists could use
- The presentation of a do-it-yourself practice potential analysis
- Other issues related to the process of "selling" part or all of a practice.

The Patient Driven Practice

SYNOPSIS

This seminar includes the following:

- An explanation of what a Patient Driven Practice is, and why they are growing
- A definition of customer service and examples of its significance
- The presentation of a two step process of deterring a practice's customer service rate
- A discussion of specific customer service related tips
- A take home computer service assessment for private use

BOTH TOPICS WILL BE COVERED IN ONE HALF DAY SESSION

Thanks to Healthgroup Financial for the sponsorship of this lecture.

RCDS Accreditation – Top of escalator to Hall C from 2:30 p.m. to 5:30 p.m.

The second badge in your holder is for RCDS Accreditation

Speakers at a Glance

ALL DAY – 9:00-11:30 a.m. and 2:15-4:45 p.m.		Room

AFTERNOON ONLY

Mr. Derek Hill	2:15-4:45 – Positioning Your Practice for an Equity Transition The Patient Driven Practice	203CD

Honourary Life Membership

The Toronto Academy of Dentistry is pleased to award its Honourary Life Membership to Dr. John H. Mullett in recognition of his singular contribution to dentistry and his community.

John H. Mullett D.D.S.

Jack was born in 1919 in West China on the border of Tibet, the son of a dentist missionary family.

During his early years, China existed as a place of mystery and complexity. With war lords controlling city states, pirates cruising its rivers and bandits at every turn in the road, it was both fascinating and dangerous.

After early schooling in China Jack completed high school in Ontario and proceeded to the University of Toronto Faculty of Dentistry, where he graduated in 1942. At university he was awarded the Bigg's Trophy as U of T's outstanding athlete for 1942. He received two first T's and two second T's.

Following graduation he spent almost 5 years with the Canadian Army Dental Corps. in England, Italy, France, Holland and Belgium.

Nevertheless, the inexorable draw of China persisted and Jack returned there in 1946 to teach at the West China Faculty of Dentistry before proceeding to Shanghai to practice and teach. There he met Lu who had spent her life in China, having been born, schooled and then was working there. Shortly afterward they were married.

But China was in turmoil as always and although encouraged to continue at the University, dire apprehensions for the future persisted so after 1½ years under communist control he chose to return with his family to Canada.

In Toronto Jack became involved with Public Health and private practice. He joined the North Toronto Dental Society Executive and progressed to the Presidency of the Academy in 1962.

Jack's tenure was highlighted by the introduction of fluoride to Toronto's water supply.

Meanwhile, he chaired an ODA Convention and remained on that committee for 25 years.

Jack became a demonstrator at the Faculty of Dentistry and in 1954 he was the founding President and later Honourary Life Member of the Crown and Bridge Study Club. For a number of years he was an Executive member of the Ontario Society of Implant Dentistry. He is a 50-year member of the ODA, a Life Member of the CDA, and Past President of the American Academy of Electrosurgery.

However, Jack's contributions did not exist merely in the profession of dentistry. He was an elder and recording secretary of the Board at St. James Bond United Church. He chaired the Scout Committee at St. John's Anglican Church.

Jack helped to publish a book on the history of his school in China as well as the history of the Toronto Academy of Dentistry's first 100 years. If not on the tennis courts or the curling ice he is involved with his slide collection and his Canadian and Chinese stamps.

Throughout his career, Jack has been inestimably supported by his wife Lu, who in her own right was continuously involved with the Ladies Auxiliary of the Academy of Dentistry and the Ladies Committee of the ODA Convention. They have two children, Robert and Mary Lou and a grandchild.

Jack recently retired from general practice, however China continues to tug and he returns there from time to time to teach, renew old friendships and to donate equipment and materials to the dental school.

The Toronto Academy of Dentistry is truly proud to award its Honourary Life Membership to this kind, personable and dedicated man.

First Stated Meeting

FRIDAY, JANUARY 26, 1996

DON'T MISS THE OPPORTUNITY FOR YOU AND YOUR STAFF TO SPEND AN EDUCATIONAL AND ENTERTAINING DAY WITH:

DR. MARVIN BERMAN

A superb spokesman for the dental profession

Special registration rates for those who register before or on the day of Winter Clinic.
Use the flyer enclosed in this mailing.

Something Different

ALTERNATIVE MEDICINE FORUM
Room 201 from 2:30-5:00 p.m.

1. Mr. Peter Smith, Smith Pharmacy
   "Holistic Pharmacy in the Dental Practice"
2. Ms. Rita Girgensons, Ontario Homeopathic Association
   "Homeopathy in Dentistry"
3. Ms. Gail Heaslip, Ontario Massage Therapists Association
   "Self Care for the Dental Team"
4. Ms. Bonnie Kumer, Toronto Vegetarian Association
   "Food Essence"

AT CDSPI, WE WORK FOR YOU.

Many companies claim to work for dentists But CDSPI — a non-profit organization owned by the CDA and co-sponsoring provincial dental associations — is truly *your* company. Our only mandate is to supply you with superior insurance and investment products:

- **CDIP (Canadian Dentists' Insurance Program)** *offers a comprehensive set of insurance plans for dentists, their families and practices*
- **CDA RSP (Canadian Dental Association Retirement Savings Plan)** *allows tax-sheltered saving for retirement with a choice of five proven investment funds.*
- **CDA RIF (Canadian Dental Association Retirement Income Fund)** *provides retirement income from rolled-over* RRSP *funds, with similar advantages as the* CDA RSP

So join the more than 90% of Canadian dentists who choose CDSPI for their insurance and investment needs. Take advantage of your company's quality products, superior services and highly competitive prices. Contact CDSPI today to learn what we can do for you.

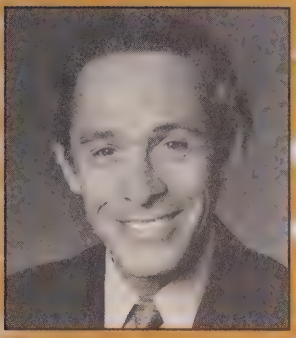
FIRST STATED MEETING

A SPECIAL OPPORTUNITY TO SPEND
FRIDAY, JANUARY 26, 1996
WITH



DR. MARVIN BERMAN
Chicago, Illinois

"One of the Finest Spokesmen of Our Profession"

Children ... The Secret Building Blocks of a Successful Practice

Learn about his **Creative No-Nonsense Practical Dental Team Approach To Setting Parameters of Behavior for Children and Adults.**

Without ... the use of nitrous oxide, sedation or other methods. Special attention will be given to the importance of dental assistants, dental hygienists and the front desk personnel.

Dr. Berman's trademark is the open workshop-like feeling of his sessions, which invites audience participation. Bring your inquiring mind and above all, your sense of humour. Dr. Berman will do the rest.

As a Consumer Advocate for the ADA, a member of the Communications Commission of the Chicago Dental Society and part of the Public Relations team of the American Academy of Pediatric Dentistry, Dr. Berman has been representing our profession when such sensitive issues as AIDS, Amalgam, Fluoride and dental phobia arise.

Dr. Berman has a weekly radio show on CBS in Chicago and has been a guest on the Oprah Winfrey and Phil Donahue talk shows.

This day will be a learning and laughing educational experience for the entire dental team.
Your patients will be the ultimate winners.

USE THE ENCLOSED REGISTRATION FORM TO TAKE ADVANTAGE OF REDUCED RATES.
(PRIOR TO NOVEMBER 22, 1995)

6 RCDS CREDITS

The Sun Didn't Shine On the Golfers, But ...

It was shining for the children at The Hugh MacMillan Children's Centre

The **Toronto Dental Golf Classic**, held on June 2nd and hosted by the Toronto Academy of Dentistry, The Toronto Central Dental Society, The Toronto East Dental Society and the West Toronto Dental Society was a great success.

Thanks to the support of the profession and the dental industry, approximately **$18,000** was donated to The Hugh MacMillan Children's Foundation. Golfers enjoyed a great day of fellowship, prizes, and good food, and were entertained at dinner by Gino Reda of TSN and Don Harron who expounded the views of Charlie Farquharson.

Mediations Report

Gilbert Chapnick
D.D.S.

As health care professionals, we have the responsibility to provide our patients with the highest standard of care. The Mediations Committee is often asked to intervene when the results of our treatment do not satisfy the patient. We find that this is sometimes due to misjudgment on the part of the dentist, lack of co-operation on the part of the patient and in many cases unreasonable expectations of the patient.

If we are to have a successful practice, we must attempt to satisfy all individuals for whom we undertake care. When problems arise with patients, it is best to sit down with them and listen to their concerns. This may be non-productive time but through direct communication, a better relationship can be developed with the patient and a crisis averted. An understanding patient is much more likely to accept our dental care and less likely to initiate a formal complaint when results are less than ideal. It is therefore prudent to fully discuss treatment needs and objectives before it is delivered.

We benefit as well when we put ourselves in our patients' shoes both in understanding and satisfaction from the treatment we render.

The members of the Mediation Committee bear a heavy responsibility to be honest with themselves, their peers, and the patients initiating the complaint. Their decisions are made after many long hours of careful consideration of the facts as presented by both parties. The goal of the Mediation Committee is to reach an amicable agreement. For their effort, we offer our sincere thanks.

A great deal of time is spent on the telephone by our office staff, Mrs. Raisyl Wagman and Mrs. Pat McCance who receive many inquiries that require experienced and sympathetic responses. On behalf of the Academy, I offer to them our gratitude as well.

Gilbert Chapnick, D.D.S.
Mediations Consultant
to the Toronto Academy of Dentistry

Past Presidents of the Toronto Academy of Dentistry

The Past Presients of the Toronto Dental Society are identified as Past Presidents of this Academy. Below is a list of Past Presidents from 1891 to 1995.

INTRODUCING THE

ALLTRA BATH
SONIC CLEANER™

New Product for Denture Wearers

Removes reoccurring tarter and tough stains safely and effectively

- The Alltra Bath sonic cleaning system outperforms current denture cleaning agents on the market.
- Consists of a mechanical denture cleaning unit and cleaning powder. The Alltra Bath operates similar to an ultrasonic cleaning unit.
- Your patients will thank you for introducing them to this new home care system

Great for any promotional program
